

# STAR WARS GALAXY OF HEROES

## Star Wars: Galaxy of Heroes Pack Probabilities

Below is the complete list of crystal packs in the Star Wars: Galaxy of Heroes store and their corresponding drop rates.

All packs guarantee something of value, however there are opportunities to receive significantly higher shard counts in packs as well. The pack probabilities are not a guarantee of outcome. The probabilities reset with every pack.

Star Wars: Galaxy of Heroes never changes drop rates based on player behavior or status; all probabilities are global unless explicitly described otherwise. All new pack types, or updates to existing pack types will be announced in advance on our forums before being changed in this document and in-game.
