Coaching Tip: Penalties

Aiming: By default, your player starts aiming at the middle of the goal. From the moment you start powering up for a shot, you can hold the left stick to move the aim anywhere inside the goal. The longer you hold the left stick in any particular direction, the farther your player's shot goes in that direction. Be careful with how long you hold the left stick, as letting go too soon results in a shot closer to the middle of the goal, and holding it for too long causes your player to miss the goal.

Saving: Committing to a save direction early allows your goalkeeper to reach farther and save shots close to the corner of the goals. However, diving farther to the side makes it more difficult to save shots aimed toward the middle of the goal.

If you think the kick taker is going for placement rather than power, you can try to react to the shot by holding the right stick in any direction after the ball has been kicked.

Touch Controls

Use the touch controls to take shots, free kicks, throw-ins, penalty kicks, and corner kicks. You can also use touch controls to make passes and switch defenders.

Shooting

To take a quick shot on goal, simply touch the goal on the screen (touchscreen). The longer you hold the touch, the more powerful your shot is.

You can also use the rear touch pad to take shots. Think of the entire rear touch pad as the goal, and touch where you want to aim. Your aim indicator is a solid dot that changes color according to your shot meter. After you have taken a shot, the results indicator, displayed as a crosshair, shows where the ball ended up.

Keep in mind that the defensive pressure combines with the direction and speed of your dribble to determine the accuracy of your shot.

NOTE: When using touch controls, the white icon in the top center of the screen indicates that your fingers may be resting on the rear touch pad. You can only trigger the rear touch pad shooting controls in the offensive third of the pitch when your fingers are not resting on the rear touch pad.

Free Kicks

To take a free kick, align the camera to face the direction you want to kick, and then swiftly drag your finger across the touchscreen. As soon as you touch the touchscreen, your player begins powering up for the shot. You can see track his power with the colored line. The type of curve you draw on the touchscreen determines the bend and topspin. Keep in mind that a right-footed player can bend the ball better to the left than to the right. The opposite goes for a left-footed player.

To take a free kick with the rear touch pad, simply touch where you want to aim your kick. The rear touch pad allows you to aim directly at the goal, but if there is a wall in the way, consider using the touchscreen to curve the ball around the defenders.

Throw-Ins

Touch where you want to throw the ball to perform a throw-in. If your player has the Long Throw-in or the Giant Throw-in trait, then he can throw the ball farther than others.

Penalty Kicks

Use the touchscreen to make perfectly composed penalty kicks. Time your shot according to the Composure Meter and touch it when it's in the green for maximum control. Then, touch where you want to aim. The duration of the touch determines your power, which is indicated by the Shot Power Meter.

Corner Kicks

During corner kicks, touch a teammate to pass the ball. To lob your pass, hold your touch.

Passes

Touch a player to pass the ball, or touch an open space to pass to a specific point on the pitch. To lob a pass, hold your touch. Hold your touch even longer to clear the ball.

Switch Defenders

When on defense, there are times when you need to switch defenders quickly. To do so, touch the defender you want to control.

Select EXHIBITION MATCH to head onto the pitch with your default settings (which can be changed in CUSTOMISE > SETTINGS > GAME SETTINGS) or select BE A PRO: GOALKEEPER or BE A PRO: PLAYER to take on the role of a single player.

Be a Pro: Goalkeeper

Play as the goalkeeper and feel the tension of acting as your team's last line of defense against the opposition's hungry strikers. Make calls to the rest of the team when the ball is off the pitch and stick to the Indicator when the opposition gets close.

Career Mode

Every player, no matter how talented, eventually has to leave the action of the pitch. In Career Mode you can expand your player's soccer career through three roles: Player, Player Manager, and Manager. Start as a player and progress through all three roles or begin as either a Player Manager or Manager. Your player's success in each role determines his value in the eyes of the soccer world!

Player Career

Take control of a career-minded professional soccer player as you play in multiple league, cup, and continental competitions. You may play as a real player, a created player, or your Virtual Pro. Make every action on the pitch count and work your way up from prospect player to club legend!

Player Manager Career

Player Managers have an impact on and off the pitch, and must strike a perfect balance between action and team management. Play as a created player or your Virtual Pro. Your player's focus rests on managing the line-up, including formation, playing style, training, and starting players, as well as taking to the pitch during key games.

Manager Career

The role of a Manager is to pick the best possible squad for each match and make sure that, based on the opponent, the right tactic is in place. Play as a created player or your Virtual Pro. Your Manager is in control of the team's finances and must manage the budget, including transfers, negotiations, and player contracts. Win prestigious cup matches and your league to rise to prominence and keep the board pleased.

Management Tips!

- Review your line-up before simming a game! Every player can make a difference to the outcome.
- Use all the search options to find the right player to complete your squad, and keep in mind how much the player wants for a successful signing.
- Take notice of your assistant coach's player assessment. His analysis of every player's talent lets your Manager know which young players deserve more time on the pitch.
- Keep an eye on your Player Level/Manager Reputation as your Manager progresses through a season. This determines his standing within the club as well as potential job offers at the end of the season.
