Wii MENU UPDATE

Please note that when first loading the disc into the Wii console, the console will check if you have the latest version of the **Wii Menu**, and if necessary a **Wii System Update Confirmation Screen** will appear. Select OK to proceed with the update. Updates can take several minutes and may add Channels to the **Wii Menu**. Please note that the Wii console must have the latest version of the **Wii Menu** in order to play the disc.

NOTE: If, after performing an update, the Disc Channel still does not display the title of the inserted disc, a second update is required. Please repeat the above procedure.

Channels added by a **Wii Menu** update will be saved to the Wii System Memory if there is enough free space. These additional Channels can be deleted from the **Data Management Screen** in Wii Options, and can subsequently be re-downloaded from the Wii Shop Channel at no extra cost.

When the **Wii Menu** is updated, unauthorised hardware and/or software modifications may be detected and unauthorised content may be removed causing the immediate or delayed inoperability of your console. Failure to accept the update may render this game, and future games, unplayable. Please note that Nintendo cannot guarantee that unauthorised software or accessories will continue to function with the Wii console after this or future updates of the **Wii Menu**.

GETTING STARTED

Insert the *FIFA 15* disc into the disc slot. The Wii™ console will switch on. The **Health and Safety Screen**, as shown here, will be displayed. After reading the details press the **A** Button. You can change the in-game language by changing the language setting of your Wii console. For further instructions about how to change language settings please refer to the Wii Operations Manual – Channels & Settings.

GAME MODES

INTERCITY CUP

Once you've conquered the Tournaments in *FIFA 15*, you can take it to the next level with the Intercity Cup. Build a club and battle it out with the elite teams from other cities.

POPULATION

FIFA 15 gives you a chance to take a city and put it on the map. As you complete certain criteria during gameplay, such as scoring with a header or taking your manager up to 80 prestige, you complete Awards. Every Award adds to your population. Awards can have Population Values of 250,000, 500,000, or 750,000.

The larger your Population, the higher your city's level—up to a maximum of 52. As you earn Awards, your city grows and becomes even more cosmopolitan and fleshed out, in addition to players, kits, and 11v11 power-ups unlocking.

BE A MANAGER

Do you have what it takes to lead a club to the top? Select your favorite country, league, and team, and manage them from a respectable squad to club champions!

TRAINING

A good team can always be better. Take to the Training menu to grow your players' attributes and increase their overall rating. If you train attributes that positively benefit a player's position, then they will be more effective on the field, giving you a better chance of winning games. A strong training regimen is crucial when managing a team.

MEDICAL

Injuries are a fact of life. Sometimes games do not go as planned and players end up injured. Unattended injuries heal eventually, but treating these injuries heals your team faster and can save a player's career. In addition, the better your medical staff, the more efficient they are at treating injuries. Upgrade your medical center to increase the capacity and skill of your medical team.

TEAM CENTRAL

If you're going to be a manager, you have to be willing to keep track of every aspect of your team. Visit the Team Central menu in order to manage your team. Adjust your Quick Tactics, examine Player Roles, and stay on top of Player Growth for best results. When used in conjunction with Training, Team Central can help you turn a good team into a great one.

CLUB UPGRADES

Upgrading your club makes things easier to accomplish. You can upgrade Training to make player growth more efficient, or upgrade Medical so that your players heal faster, among other options.

HIT THE PITCH

Looking to get a quick match of regular club in? Hit the Pitch gets you into a match with your favorite clubs – you can play on your own, against friends, or play together to take on the AI in a full-blown 11 on 11 match.

HIT THE STREETS

Take your game to the streets or even indoors in this 5 on 5 mode! Play with your favorite players from your favorite club or national team and take them on to one of seven different walled environments. Get out of your regular kit and put on a hoody, t-shirt, or jacket as you play this exciting mode on your own or with friends.

MATCH TYPES

Change your win condition in Hit the Streets:

- Timed** Choose how long you want your match to last. The team in the lead at the end wins. If the score is even, you go into Golden Goal mode—first to score wins!
- Score** Choose how many goals to play to—first to hit the target wins!
- Tug of War** Choose the goal differential to win by—first to be leading by that number of goals wins!

POWER-UPS

FIFA 15 incorporates power-ups as an arcade element to the Intercity Cup mode. Playing well earns you the power to dominate your opponent with special abilities. Activate your earned power-up by pressing the **1** Button or **ZR** Button.

NOTE: Power-ups do not represent the real rules of the game.

POWER-UPS

- Power Shot** Shots are struck with maximum power. Opposing players are intimidated and dive out of the path of the ball.
- Speed Burst** Your players are given a speed boost, allowing them to push the pace of play.
- Curve Shot** Shots have the ultimate curve and twist toward the net with near perfect accuracy.
- Slide Tackle** Enables slide tackles in street gameplay—shake the Wii Remote to use them.
- Super Shoulder** Enables shoulder barges to dispossess your opponent of the ball. Shake the Wii Remote to use them.
- Big vs. Little** The team that applies this power grows in size while their opponents shrink. The bigger players become stronger, while the small players are weaker and unable to shoot or tackle with as much force.
- Shockwave** The team that applies this power-up sends a shockwave toward its opponents that knocks them down to the pitch. Be sure to take advantage of the open space while your opponent is out of play.

STREETS TO STADIUMS

Do you have the skills to become the next phenomenon? Streets to Stadiums lets you create your own pro player and have him rise to fame from the humble streets all the way to the big stage of club play.

CREATE PLAYER

Streets to Stadiums puts you into the game with the option to create a unique player. Choose from various customization options to create the player you will take to greatness! Change your player's face shape, body type, skin tone, hair, and eye color. More customization options are unlocked as you progress through your Pro career in Streets to Stadiums.

NOTE: You can continue to edit your player before and after a match by selecting his picture from the Streets to Stadiums Central screen.

UPGRADING ATTRIBUTES

The last step in creating your pro is assigning experience points (XP) to boost your player's attributes. You are given some to start off with, and performing well on the pitch earns you more XP to assign to your player. Assigning XP to attributes increases your player's overall rating, making it easier to complete tasks as you progress in the mode.

FAME MOMENTS

Prior to each match, you get to choose up to three tasks to complete for that match. You are also given a bonus task to complete each match. Choose carefully, as tasks you complete increase your fame rating, but incomplete tasks take away from your rating. Bonus tasks only add to your rating if completed—they do not take away from your rating if incomplete.

LEVELING UP

Success in Streets to Stadiums is primarily determined by your Fame Level. Completing Fame Moments earns you fame points that contribute to reaching the next Fame Level, which in turn provides your character with a reward. How far will you get in your pro career?

GAME BOOSTERS & PLAYER UPGRADES

Game Boosters and Player Upgrades are earned through your career by leveling up or through the Match Win Bonus Game (described below). Choose to play up to two Game Boosters prior to each match and give your team boosts for that match, or hold on to your Game Boosters to combine them later into more powerful boosts. Player upgrades unlock new ways for you to customize your created player. See what Game Boosters and Player Upgrades you have earned and played by going to Boosters & Upgrades from the Streets to Stadiums Central screen.

MATCH WIN BONUS GAME

As in the real sport, it's not just about the individual—you still need to help your team win matches. When you win a match, you are taken to a bonus game where you can win additional XP, Fame Points, or Game Boosters.

TOURNAMENT

Prove your status as the season's best by competing in a host of tournaments around the world. Select LOAD to continue a previous tournament, or select NEW to begin a new one. Select which tournament you'd like to compete in and the teams that you'd like to control, as well as the difficulty level of opposing teams. Each team in your chosen league or cup can be controlled by a human player—great for multiplayer sessions!
