HIT THE STREETS

Try out all the match types in *FIFA Street* by going to Hit the Streets from the Main Menu.

Select Match Types

Choose from four preset match types, or create your own Custom Match type, which lets you make your own rules using one to six players. For Custom Match set-ups using one to four players, you can also choose whether you want to play with or without a goalie.

Download Friends' Teams

From the Select Team screen, you can choose to download *FIFA Street* teams created by your Friends. Click on any '+' icon in the Created Teams league to go to a screen where you can see your Friends' teams.

Change Kits & Venues

From the Match Setup screen, you can choose to use a proper team kit or street gear by going to the Kits screen. You can also change your environment in the Venue screen—or choose a random environment by pressing **X**.

MATCH TYPES

Futsal	Futsal is played five-a-side in stadium environments. There are no walls, so you have to watch your shots and passes.
Last Man Standing	Score a goal and lose a man. Last Man Standing is all about trying to be the first team to lose all their players. Played with three to four players and no goalies.
Panna Rules	Each Panna is worth three points, each Air Beat is worth two points, and each Beat is worth one point. The points go to your bank until you score. If the other team scores first, you will lose your banked points.
Freestyle	Freestyle matches are all about being entertaining—use skill moves, juggling, pannas, and beats to earn more points than your opponent.
First to X	It's about scoring early and often! Be the first to reach the target number of goals to win the game.
Timed Match	Set the length of each half and try to out-score your opponent.

WORLD TOUR: OVERVIEW

World Tour is a connected, social game mode where you get to take a team of you and your Friends to street football glory.

Create Player & Team

You start by creating yourself in the game to become the captain of your squad. Your character is then uploaded to the EA Servers, as are the captains created by other *FIFA Street* gamers, including your Friends. You can then build your team by creating new characters or downloading your Friends' characters.

Once you create your team, it is also uploaded to the EA Servers and becomes a part of the *FIFA Street* world, along with the other teams created by other *FIFA Street* gamers.

You are now ready to embark on your World Tour and compete against other gamers' teams to become the best in the world!

WORLD TOUR: EVENT MAP

The event map is your main HUB in World Tour. You start your tour in the country and region of your choice and progress from this regional stage to national, European, and finally World stages. There are two types of events on the map: Tournaments and Challenges.

Tournaments

Tournaments are your means of progression in World Tour. Competing in tournaments will earn you Ranking Points, which are used to progress up the stage leaderboard. If you can gain enough points to enter the Top 8 teams in the stage you will gain an invitation to the final tournament. Perform well here to progress to next stage.

Challenges

Challenges are one-off matches that do not affect ranking points, but do offer different rule-sets and rewards. Some challenges even allow you to steal a player from your opponent in order to strengthen your squad. Progress to the European and World stages, and you will compete against some of the real stars from the world of street football and from Europe's top clubs. Win these matches to bring a star player to your squad!

Home Icon

The home icon on the event map lets you access your squad so you can grow your players, change your team information, or update your street or team gear. You can also access the World Tour rankings so you can see your standings and what you need to do to be able to advance to the final tournaments.

Unlockables

All challenges and tournaments have three tiers of unlockables corresponding to difficulty level. Completing the tournament or challenge on the hardest difficulty or online unlocks all of them at once. Unlockables include new street and team gear, plus teams and venues for use in Hit the Streets.

Leaderboards

All challenges and tournaments also have leaderboards so you can compare your best results against your Friends.

MY SQUAD

Your squad created in World Tour is also used in online matches and can be used in Hit the Streets. Every match you play with your squad helps earn XP for your players, which can be used to grow your player attributes and unlock new skills and styles.

You can access My Squad from the Main Menu, the World Tour event map, or the World Tour Tournament HUB.

Be Entertaining

Leveling up your player is your key to earning XP, and you level up by playing the game in a stylish manner to gain Style Points for your players. Unlocking new flair animations or tricks will help you earn Style Points more easily and help you level up your player more quickly.

XBOX LIVE GAMING

World Tour

You can choose to play World Tour tournament matches on Xbox LIVE.

Street Seasons

Street Seasons is the head-to-head Xbox LIVE game mode in *FIFA Street*. Xbox LIVE matches are divided into 10-game sets—your goal is to get your team promoted, or avoid relegation in those 10 games. There are 15 divisions in all. Also, you can compete in Street Seasons Xbox LIVE tournaments in 5v5, 6v6, or Futsal matches.

Online Team Play (OTP)

Join up to seven other gamers in an Xbox LIVE game session as you control your own created character.

Friends Play

Invite a Friend into a head-to-head match, or invite several Friends into an OTP session.

STREET NETWORK

Street Network connects you to your Friends. Powered by the EA SPORTS Football Club, the Street Network allows you to see the progress of your Friends, view shared videos and compare progress on leaderboards.

Wall

The Wall shows the events of your Friends, including their World Tour progression, Street Seasons success, or shared media. For the first time, you can view shared media directly in game—bringing the street football showboating culture to life. The Wall will also recommend new Friends to you based on shared connections with your existing Friends.

Media

This is where you can view your uploaded media.
