Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause "photosensitive epileptic seizures" while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

You can also sign free agents, view upcoming free agents to plan your off-season strategy, or release players who did not make the cut.

MY FRANCHISE

My Franchise lets you see the big picture as you develop your own NBA franchise. This includes players, coaches, logos, jerseys, arenas, and contracts.

ITEMS

As you gain new packs, you will have an abundance of items for your team. To scroll through multiple pages of items, move (\$\mathbf{3}\) and \$\mathbf{3}\). You can also mark all items by pressing \$\mathbf{0}\]. This marks all of your items across all pages—not just the page you're currently viewing—to make clearing out your inventory quick and easy.

PLAYER ITEMS

Move (4) and (4) to scroll through players on your Ultimate Team and see their items. You can then scroll through each player's items and bring up detailed information about them by moving (6) and (3). Press • to see all the information at once on the Player Details page.

COACH

Decide which playbook your team will use to work toward victory in the next game.

LOGO

Choose the perfect logo to represent your team.

JERSEYS

Choose home and away jerseys for your team. Feel free to get creative—the two types of jerseys don't have to match your Ultimate Team logo or each other!

ARENA

Select your home arena, which will be the setting for future home games.

CONTRACTS

To get out on the court, players must have available Contracts. Contracts are available in packs. Each Contract can only be applied to a single player, at which point it is consumed. Every time a player in the Active Lineup enters a game, he spends a Contract, leaving him with one fewer than before.

To apply a Contract to a player, simply highlight the player and press ② to bring up the Actions menu. Select APPLY CONTRACT and choose the Contract you would like to apply to that player.

EDIT FRANCHISE

Select EDIT FRANCHISE to edit your team name, logo, coach, jersey, or arena. If you want a fresh start, you can also delete your team. This will delete everything associated with your team, including your coin reward balance. These cannot be recovered. All that will remain are your NBA Points.

ACTIVE LINEUP

View your players and set them up for action on the court. Compare players, swap player positions, search your franchise for replacement players, sell items for coins, and customize everything from your jerseys to your coaches.

SWAPPING PLAYER POSITIONS

Make sure your players are in the best positions on the court to encourage smart plays and teamwork. To swap player positions, highlight a player and press ⊗, and then highlight a second player. Press ⊗ while highlighting the second player to swap his position with the first player's.

CHANGING YOUR ACTIVE LINEUP

If your team is underperforming, you can change your Active Lineup to bring in players with different attributes. Highlight a player and press ② to access the Actions menu. Here, select SWAP WITH FRANCHISE to remove the currently selected player from the lineup and search your franchise for a replacement player.

If you'd prefer to leave the player's slot empty for now, select SEND TO FRANCHISE to remove the player without immediately replacing him. You will need to replace the player before entering another game.

You can also discard any player from your franchise in exchange for coins.

PACKS

Packs contain players and other valuable items for your team. Each pack has a set composition, but the exact items are random. Some packs are more likely to contain certain types of players, so purchase gold packs for a better shot at obtaining a gold player, etc.

You can purchase packs with coins you've earned in-game or NBA Points purchased with real-world currency. You also earn packs as you level up by completing Fantasy Challenges in Ultimate Team and by increasing your EA SPORTS™ HoopsNet level.

If you like the items in a pack, you can place them in your franchise. The exception is if you obtain a duplicate player who is already in your franchise; you must deal one of them out for another player.

AUCTIONS

Auctions let you buy and sell items with other players. You can use filters to search Auctions for exactly what you want, and then plan your bidding strategy carefully to try to win and purchase it! You can also put your items up for auction and set the duration, starting price, and buy now price for the item in Auction.

FANTASY CHALLENGES

Play a series of games to earn extra coins and packs as rewards. You'll be pitted against opponents with skills in specific areas.

Some Fantasy Challenges have special entry requirements you must meet in order to participate. Keep an eye out for Weekly Challenges that will come throughout the season — they're available for a limited time only and usually offer extra coin and pack rewards.

LIVE SEASON

LIVE Season is a living gameplay experience that is as dynamic as the NBA. Ever wanted to relive a basketball player's winning moment on the court, or try to rack up the same stats as your favorite team when they've been scoring big? LIVE Season lets you do just that, using Synergy Sports Technology to bring you new playable content throughout basketball season based on real NBA action.

BIG MOMENTS

Replay the NBA's biggest moments from the night before. Some challenges are individual player objectives, while others are objectives for the entire team to complete. For instance, you might have to make the winning shot before the buzzer or perform with the same consistency as a team that had a great night on the court. Unlike NBA Rewind games, BIG Moments challenges are shorter than a full game, ranging from one minute to two quarters.

HOT SPOT CHALLENGES

With the brand-new Hot Spot Challenges, recreate shooting performances of your favorite players or teams. Once on the floor, shoot from the hot spots marked on the court and relive the game like never before.

NBA REWIND

In NBA Rewind games, you can step into the shoes of players from your favorite NBA teams to complete Challenge Objectives. Depending on how a team performed the night before, you might be tasked with scoring a certain number of points as a specific player or trying to beat the numbers of a top scorer. All of these challenges are based on real NBA game results and statistics, and they're available just hours after real games end to keep you in the action.

JUMP-IN

In the all-new Jump-In feature available within NBA Rewinds, you can now select a moment within any Rewind challenge to pick up and play. Scrub the timeline to play either as little or as much of a Rewind as you'd like, and watch the challenge criteria change on the fly based on the real-world scenario!

HEAD TO HEAD
