⚠ WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- ▶ dizziness
- ▶ eye or muscle twitches
- ▶ disorientation
- ▶ any involuntary movement
- ▶ altered vision
- ▶ loss of awareness
- ▶ seizures
- ▶ or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

USE AND HANDLING OF VIDEO GAMES TO REDUCE THE LIKELIHOOD OF A SEIZURE

- ▶ Use in a well-lit area and keep as far away as possible from the television screen.
- ▶ Avoid large screen televisions. Use the smallest television screen available.
- ▶ Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
- ▶ Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:

Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ FORMAT DISC:

- ▶ Do not bend it, crush it or submerge it in liquids.
- ▶ Do not leave it in direct sunlight or near a radiator or other source of heat.
- ▶ Be sure to take an occasional rest break during extended play.
- ▶ Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

PLAYSTATION®3 SYSTEM

Starting a game: Before use, carefully read the instructions supplied with the PS3™ computer entertainment system. The documentation contains information on setting up and using your system as well as important safety information.

Check that the MAIN POWER switch (located on the system rear) is turned on. Insert the *NCAA® Football 14* disc with the label facing up into the disc slot. Select the icon for the software title under [Game] in the PS3™ system's home menu, and then press the  button. Refer to this manual for information on using the software.

Quitting a game: During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select "Quit Game" from the screen that is displayed.

Hint To remove a disc, touch the eject button after quitting the game.

TROPHIES: Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

Saved data for PS3™ format software

Saved data for PS3™ format software is saved on the system's hard disk. The data is displayed under "Saved Game Utility" in the Game menu.

PLAYING

NEW NIKE SKILLS TRAINER

Learn the finer points of the game and how to take advantage of new gameplay features by playing one of the in-depth tutorials available in the Nike Skills Trainer menu under Play Now. Each tutorial is composed of a video explaining how to perform a move, and then a series of drills to teach you how to get the most out of your game. Performing well in each drill gives you a chance to acquire an Ultimate Team Card.

NEW OPTION MECHANICS

Running the Option is now more accurate than ever, with the ability to re-option and identify the read man pre-snap. Watch the defensive line for the read man, indicated by a player enclosed by a box, and pay attention to his movements. Successfully gauge whether or not he's going to go after your QB or HB and react accordingly for big gains!

1-BUTTON MODE

1-Button Mode allows newcomers and vets alike to enjoy a simplified version of classic NCAA Football gameplay. 1-Button mode allows you to snap, punt, kick, and pass the ball. Additionally, the CPU assists you by auto-catching passes and your players automatically sprint when running downfield.

TOTAL CONTROL PASSING

Total Control Passing gives you fine control over your quarterback's passing. Use Total Control Passing to lead your receivers and direct them where you need them to be when throwing a pass. For example, move the left stick ↓ to under-throw the receiver and move the left stick ↑ to lead a receiver down the field!

PERFORMANCE LEVEL

Players improve their performance level by making big plays. If you make a big play with an impact player, or any player that is in the zone, you gain a performance level boost, as do your surrounding players.

ADJUSTMENTS

Press the **R3** button before plays to access the Adjustments menu. Use Adjustments to set specific or global strategies for plays.

DEFENSIVE ASSIST

If you end up out of position or disoriented on defense, Defensive Assist gets you back on track. Press and hold the **X** button to move your player to his correct position at any given time. This works dynamically, so as the play progresses, Defensive Assist keeps you properly oriented.

ICE THE KICKER

Rattle your opponent's kicker by calling a timeout before he attempts a field goal. Once the timeout has been called, blue ice appears over your opponent's kick meter, the camera is lowered to field level, and your opponent's controller vibrates.

HOME FIELD ADVANTAGE & TOUGHEST PLACES TO PLAY

Where you play affects your performance. Schools with large stadiums and imposing crowds rattle opposing quarterbacks and impact what happens on the playing field.

SUPER SIM

Super Sim allows you to simulate any part of the current matchup at any time. This option is available via the pause menu or from the top level of the playcall screen. Watch the CPU play out the down by selecting WATCH PLAY.

TEAMBUILDER

Use TeamBuilder and create a new college team to match your unique personality. Use the TeamBuilder website, www.EASPORTS.com/teambuilder, to edit everything about your team, from the location and mascot on down to the uniforms.

SAVING AND LOADING

Before exiting Dynasty Mode, Road to Glory, or a menu where changes have been made, be sure to save your progress to your storage device. Any unsaved progress may be lost if you do not save.

ULTIMATE TEAM

WHAT IS ULTIMATE TEAM?

In Ultimate Team, you accumulate items to create your dream team of NFLPA players and legends. Starting with your free starter team, build your team through auctions or by adding players through new packs.

NAMING YOUR ULTIMATE TEAM

When you start your Ultimate Team, you are given a default team name. Any time after you finish opening your Starter Pack you can go to the Help & Settings panel to rename your team.

OPENING YOUR STARTER PACK

Kick off your *NCAA Football 14* Ultimate Team by opening your free Starter Pack. Your Starter Pack contains the uniforms and playbooks of your chosen team.

THE HUB

This is your home screen, where you can access everything you need with just a simple click. The hub is where you'll learn about new content releases, new features, and other important news.

COLLECTIONS AND TEAM MANAGEMENT

Select the Manage Team panel to manage your starting Lineup, Current Rosters, Reserve items, and Packs. The panel indicates your any unopened packs that you have and your Complete Collections.

MANAGE CURRENT LINEUP

On the Lineup screen, you can change your starters and select different, uniforms, a stadium, or playbooks. When you select a position, you are shown the current players in your lineup that are eligible to play the selected position. You can flip over items to compare player stats. You can also access a more detailed view of your current team by going to the Depth Chart view.

CURRENT ROSTERS

The Current Rosters screen contains the 100 items assigned to your currently active team. This 100 is divided into up to 55 player items and up to 45 other items like Uniforms, Stadiums and Playbooks. Only your active items can be used in your lineup. You can move items to your Reserves, quick-sell them for coins, or post them for an auction.

RESERVES

The Reserves is an area where you can store items that are not currently part of your team. Think of it as your developmental squad, but a lot bigger. You can store any type of item in your Reserves. The only actions you can take on items in your Reserves are to send them to your Current Rosters, or to quick-sell them for coins.

MY PACKS

The My Packs screen is where you can see packs that you own, and where you can choose to open those packs.

PLAY GAMES

On the Play Game panel, you can choose to use your Ultimate Team in a variety of game formats. Earn coins by playing against other users in Head to Head games or against the CPU in Solo Challenges.

STORE

The Ultimate Team Store is where you go to find item packs, pack bundles, and item deals to improve your team. You can purchase pack bundles, which provide you discounts when purchasing larger quantities of packs. If you are looking for a specific item to add to your Ultimate Team, players and Games can often be found in the Single Items category.

COLLECTIONS

Gather complete collections in Ultimate Team to get access to new players and other rewards. To add an item to a collection, place the item in your Pending Collections bin from the New Items or Current Rosters screens. Afterward, go to the appropriate collection for the option to add that item.

COINS

You can earn coins by playing games or by having other users win your items in auctions. Use those coins to buy packs, bundles, or deals in the Ultimate Team store, or to bid on auctions.

GAMES

Players have a Games number which decreases as you play games. When that number reaches zero, you must apply a Games Extension item to the player on the Current Rosters screen. Your starting items have 25 games, and other new items typically begin with 10 (one season). Games Extension items list how many games will be added to the player when applied.

INJURIES

Players can become injured, and will have to sit out the number of games indicated. Applying an Injury item to the player can shorten that time.

AUCTIONS

You can post your items for auction. Set a starting and buyout price, and the length of the time the auction should be available.

Looking for a key addition to your Ultimate Team? You can search for auctions posted by other users.

REDEEMING CODES TO UNLOCK ULTIMATE TEAM ITEMS

You can redeem codes by visiting the Settings menu and selecting REDEEM CODE. Once you have redeemed your code, you can return to Ultimate Team to view your items. Go to the My Packs area of the Collections and Team Management panel and open the pack containing your new items.

DYNASTY MODE™

PRE-SEASON

Get a jump on recruiting by scouting prospects that you have added to your recruiting board. The pre-season is the perfect time to learn about and manage your current team by taking advantage of practice and then redshirting players that would benefit from it.

DURING THE SEASON

Your goals during the season are winning games against your rivals, winning your conference, and bettering your chances for a run at the national title. Go after those key prospects to make your team better by scouting them in depth, allocating recruiting points weekly, and pursuing them all the way until signing day. Make sure to check your coach skill tree, located in Coach Central, and see which skills are most helpful.

AFTER THE SEASON

After playing the final game on the schedule, be it a season-ending bowl victory or a crushing loss, your school may offer you a contract extension or another school may come calling with a better job. Your performance and success are everything. By meeting or exceeding your target wins each year, you can maintain your contract or have other opportunities open up for you, giving you a chance to turn a career into a true dynasty. Go into the Coach Carousel to see other coach position movements as well.

THE OFFSEASON

Make one last recruiting attempt for that top prospect by allocating just enough of your total points to seal the deal, or even all of your total points. With a little help from your coaching skills, you can turn the tides on Signing Day. Make sure to talk with players who are thinking about leaving school early, train your squad, and cut players. Say good luck to your outgoing players as you send them off to the pros by exporting your player class to *Madden NFL® 25*.

COACH CAROUSEL

Your performance and success are everything. By meeting or exceeding your target wins each year, you can maintain your contract or have other opportunities open up for you, turning a career into a true dynasty.

NEW POWER RECRUITING

The all-new Power Recruiting system makes recruiting fast and immersive. Simply allocate points towards prospects from the pool of recruiting points and make weekly adjustments as needed. Some coach skills will allow you to increase the amount that can be allocated to the prospect, as well as increase your total pool of points per week. Be sure to keep an eye on the prospect's cutoff line in the Top Schools panel and make sure you survive the cut. Make that last push for those highly ranked prospects on your board with a one week offseason unlimited point allocation recruiting effort. Make it to Signing Day and see what the final outcome of your efforts brings you.

ALLOCATING RECRUITING POINTS

Each week, you have a certain number of points to utilize for all of your prospects. You can increase the number of points by purchasing coach skills. These points, when assigned to prospects, help raise the interest of that prospect in your school. Each prospect has a maximum number of points that can be assigned to them each week. If you do not adjust the number of points assigned to a prospect from the week before, the same number of points is automatically assigned to him the next week. Be aware that other schools are in contention and assigning points to the same prospects you are, so adjusting your number of allocated points each week helps you to overtake the lead school, close the gap, or extend your lead on other teams. You can monitor the weekly changes and point gains or losses by going to the Top Schools panel inside the recruiting board.

SCOUTING

Scouting is essential for determining a prospect's true value. In *NCAA Football 14*, scouting is the only interaction you can have with a prospect during the pre-season. Simply spend the flat rate amount and scout. Coach Skills can help you scout more efficiently and at a reduced price. Make sure to continue scouting during the regular season as well to ensure you get the right prospects for your team.

BONUS POINTS

Every prospect receives Bonus Points based on how you rank in their top interests. Each prospect's Bonus Points are automatically allocated to them each week in addition to any points you actively assign to your prospects. A prospect's top interests can be dynamic and change from week to week. Whenever a prospect's interest grade falls, the number of bonus points you can earn will be lowered and there is a chance that you may face a Deal Breaker. You can keep track of a prospect's Bonus Points by navigating to the Bonus Points panel inside the recruiting board.

DEAL BREAKERS

All prospects will have a percentage chance of having a Deal Breaker concerning your school. A Deal Breaker revolves around the prospect's top interest grade and can be dynamic. If a prospect has a Deal Breaker with your school from the beginning, you will not be able to add them to your recruiting board. A special icon indicates these Deal Breakers. If a prospect develops a Deal Breaker after you have added them to your board, then you will not be able to allocate points to them until you raise the interest grade.

SCHEDULING VISITS

Scheduling visits are a great way to earn points that automatically get allocated to a prospect. Each prospect gets only five visits per season and each one is worth its own certain amount of points. The later the visit, the more points that visit is worth. You can gain extra points by scheduling a prospect's visit with a complementary prospect, such as scheduling a quarterback's visit with a wide receiver and an offensive lineman. You can also earn extra bonus points by scheduling a visit when you have a game against a rival team, a ranked team, and even other user-controlled teams. Each visit has performance-based visit goals. These visit goals are both victory- and statistic-based, such as "Rush for 100 yards" to "Win against a Rival Team."

RECRUITING BATTLES

Recruiting takes on a new experience, as you will find yourself entering into recruiting battles against other schools in order to sign top prospects. These battles take place once a prospect has narrowed his choices down to a select few. You can track potential upcoming recruiting battles by monitoring their percentage to lock and seeing if you are gaining or losing ground with the other schools involved. If you happen to be involved in a recruiting battle, do your best to stay close to the leader or expand your lead by allocating enough points. If you find yourself locked out, you have a chance to get back into the battle by using the Coach Skill "Locksmith." Make sure that you offer a scholarship to all the prospects that you want to sign. If you do not offer a scholarship to a prospect then you will find yourself missing out on the recruiting battle and signing that prospect.

NEW COACH XP GOALS AND COACH SKILLS

NCAA Football 14 brings an RPG feel to your Dynasty experience. You can earn XP for your coaches and gain levels by succeeding on the field and on the recruiting boards. With each level your coach gains, you are granted a new skill or the chance to upgrade an existing skill. Coach Skills influence recruiting, game management, and on-field performance. As a Head Coach, you can control what new skills your coordinators learn. You will also have control over your level pacing, as well as your starting level, for both online and offline dynasties. During the Custom Conference stage of the offseason, you are able to reset all of your skill upgrades if you wish to try a new approach.

GAME MANAGEMENT SKILL TREE

Your team looks to you for guidance and inspiration and the Game Management skill tree helps you come through for them. The Game Management skill tree offers skills that allow for better play call decisions, as well as influencing the motivation levels of your team. Motivation levels influence a player's performance in a game by raising or lowering a player's key abilities. If your players are not having a good game, then their motivation drops and their performance suffers. If your players are having a good game, their motivation and performance increase. In addition to motivation-based skills, the Game Management skill tree also helps in play call decisions, play recognition, and providing your players with discipline and poise.

NEW COACH CONTRACTS

Coach Contracts allow you to look at your program's 30 years of history while keeping an eye on the present with target win expectations. As a coach, you will be tasked with upholding and improving your school's tradition and be rewarded with an extension, if you are successful. If you perform well, you are rewarded with an extension or job offers from other schools.

NEW NEUTRAL SITE GAMES

Want to play in a Kickoff Classic or just schedule your school's game in a different stadium location? Now you can do just that with Neutral Site Games. Schedule your school for one of three Kickoff Classics or schedule your game at any available field for a new experience. Established neutral game fields are available to be scheduled. You can do this when you are creating your custom schedule.

NEW SINGLE SEASON MODE™

2013 SEASON

Single Season Mode offers a streamlined way to play the 2013 season by removing the recruiting, job security concerns, and coach skills found in Dynasty Mode. You still have the ability to adjust your depth chart, edit your roster, practice, and even edit your playbook while accessing all the ESPN stories for that season. Once you have taken your team to the National Championship, you can then do it all over again with a new team.

ROAD TO GLORY

Are you good enough to step into the spotlight? The Road to Glory is hard fought and full of trials and tribulations. Start out in High School and import your own custom Team Builder teams to re-create your own senior year of football!

CREATING YOUR STUDENT ATHLETES

Edit an existing college player and take over at that point in the player's career, or create a student athlete from scratch and guide him through his high school playoffs. Improve his recruiting ranking and earn scholarship offers.

COACH TRUST & POSITION BATTLES

You gain and lose Coach Trust points depending on how well you perform. As you earn points, you work your way up the depth chart through Position Battles. Once you become the starter, keep earning points to unlock more abilities that give you more plays and let you have more control over the team!

PRACTICE & SCOUTING REPORTS

In Road to Glory, you have to earn your position on the field by improving your skills in practice. Start off on the Scout Team and work your way up to playing with the Starters! Check out the new Practice Facility and Scouting Report to find out what it takes to beat your opponent that week.

REACTION TIME

Press the **L2** button to trigger Reaction Time at any point during a play when in Road to Glory or Nissan Heisman Mode. The game will slow down so that you can make quick decisions on the field. The more Awareness you have, the more time you can spend in Reaction Time.

GAME FACE

Personalize your Road to Glory experience by adding your face to the game. Go to www.easports.com/gameface to upload your own photo.

NISSAN HEISMAN MODE

Take Road to Glory to the next level in the Nissan Heisman mode. Take control of a former Heisman winner and hit the field in an attempt to replicate their award-winning season. You can place the player onto any team in the country in your quest to meet their real-world stats. Can you match them stat-for-stat, or are you good enough to exceed their sterling records?
